

Challenger Learning Center-St. Louis

Distance Learning Programs

The Body in Space Video Conference

Grade: 5th-8th

Length: 30-35 minutes

Availability: Tuesdays or Thursdays, minimum 14 days notice

Cost: \$85 per program, \$80 per program if ordering three or more for the same day

During this interactive program, students will learn about the science behind the effects of space travel on the human body. They will participate in hands-on activities and discussions about the environment of space, space adaptation sickness, fluid shift and its effects on body organs, and bone and muscle atrophy.

A Day in the Life of an Astronaut Video Conference

Grade: 1st-4th (can be customized for higher grade levels)

Length: 20-25 minutes

Availability: Tuesdays and Thursdays, minimum 14 days notice

Cost: \$75 per program

During this interactive program, students will learn about the daily activities of astronauts, including typical work activities, spacewalks, exercise, going to the bathroom, sleeping and eating in space. Students will also see real astronaut food and a short video clip of astronauts “playing” with their food.
